

Project: "Private School Website" (PART ONE)

Objective:

The creation of a website for a private school using HTML and CSS.

Features:

- Home Page:
 - A header with the school name and logo.
 - A navigation bar with links to other pages.
 - A section with an image
 - A welcome message (e.g., "Welcome to [School Name]!").
 - A brief introduction about the school.
- About Us Page:
 - A section detailing the school's description.
 - An image of the school or a group photo of the staff.
- Academics Page:
 - A list of classes/grades offered.
- Admissions Page:
 - A form for new student inquiries: First Name, Last Name, Age, Gender, Class Applying For, Email, Contact Number, Address, Father Name, Mother Name.
- Contact Us Page:
 - Display the school's address, phone number, and email.
 - An iframe embedding a Google Map to display the school's location.
- Footer (consistent across all pages):
 - Links to social media accounts.
 - School address and contact information.

Request for CSS Styling:

To enhance the visual appeal and layout of the website, it is important to incorporate CSS code.

Expected Outcome:

A 5-page website that is visually appealing and functional, providing a basic online presence for a private school.

NB: The information (texts, images, locations, etc.) included in your website does not necessarily have to be real.
